Conference Honorary Chair

Dr. Susumu Ishii, Nihon University, Japan

Conference Chair

Dr. Hideki Kohno, Nihon University and Hoshi University, Japan
(kouno.hideki@nihon-u.ac.jp)

Conference Co-Chairs

Dr. Michael Crosby, Mote Marine Laboratory, USA
(mcrosby@mote.org)

Dr. Danling Tang, South China Sea Institute of Oceanology, China
(lingzistdl@126.com)

Dr. Kenji Hotta, Nihon University, Japan
(hotta@ocean.cst.nihon-u.ac.jp)

Session Topics (Chair: TBA)

- Artificial Reef-based Fisheries Enhancement
- Aquaculture-based Fisheries Enhancement
- Biology and Biodiversity
- Climate Change Law and the Pacific
- Coastal Environmental Restoration Technology
- Coastal / Marine Tourism, Education and Healthcare
- Effect of Ocean Acidification
- Energy and Climate Change
- Engineering and Technology Development
- Fisheries Management and Stock Enhancement
- Future Ocean Environment and Sustainable Economy
- New Technology, Financial Innovation and Policy
- Progress and Challenges of Marine Renewable Energy
- Remote Sensing Marine Ecology
- Sustainable Use and Conservation of Marine Resources Through Sato-Umi and Integrated Local Environment Knowledge
- Tsunami Disaster and Tsunami Damage Management of Port and Harbors
- New Directions in Sustainable Aquaculture Technology : IAS and IMTA

Proposed sessions are most welcome.

TOPIC AREAS

PACON invites and encourages all interested parties to participate in PACON 2014 by contributing oral presentations on aspects of marine science, technology, resource management, biology, engineering, policy-making and education that address some facet of ongoing or proposed international partnerships within or impacting the Pacific Rim addressing regional challenges and opportunities in achieving a sustainable ocean. Topics can range from climate change to marine debris, biology and biodiversity, seaport engineering to coral reef ecology, marine fisheries management to sustainable energy production, and local community outreach to development of national and international policies related to the Pacific Ocean.

Conference Organizers

Dr. Cesar Villanoy(Philippines), Dr. Danling Tang(China), Dr. Michael P. Crosby(USA),

BACKGROUND INFORMATION

PACON was organized by a diverse group of scientists and engineers in 1982 to conduct international conferences on marine science, technology, and policy, specifically oriented towards Pacific Rim nations. PACON represents the interests of all nations and states of the Pacific Ocean. It recognizes that each has its own unique culture and challenges within its Exclusive Economic Zone, but that all Pacific Rim Nations share common resources and problems. PACON 2014 will serve as an outstanding vehicle for information exchange and developing international marine science and technology partnerships among diverse groups from government, industry, and academia to address these critical regional challenges.
